

OFFICIALS PROVIDING THEIR NAMES FOR GAMES/CONTRACTS

All registered sports officials that complete contracts for games with schools are requested to use their proper name, or the way their name was submitted to PIAA on their registration form. Officials may check what they have filed with PIAA by looking at their officials' identification (ID) card or looking up their name on the PIAA database.

Schools have informed our office that some officials use either a shortened form of their name, or use a nickname, and it is causing problems with their central offices on reviewing their registration with PIAA and processing their names for payments of game fees. Please assist schools in the completion of *contracts for games* by providing your proper name or your name as issued upon your ID card.

Thank you for your assistance and cooperation. It is appreciated.
