Lightning Safety
Thunder is the same as Lightning

You hear Thunder – then stop the contest and follow all guidelines of Lightning! NO EXCEPTION!
When to Resume Play?

- Wait AT LEAST 30 minutes after last lightning seen or thunder heard

- If at minute 25, see / hear more activity, start the count over

- Do NOT rely on clear sky, lack of rainfall
When to Resume Play?

- Even if storm moved on, lightning risk may remain because storm can be miles from lightning.
- Do not shorten the 30 minute rule.
- Do not resume play if any threat remains.
- Do not allow game management to "CLOUD" your judgment!
Remember

- Use common sense / good judgment / make the hard (safe) call
- ALL TIMES GO TO SAFETY—when in doubt, suspend play
- A game can ALWAYS be made up
